Republican District Convention.

A republican convention for the 46th senatorial district will be held at Little Falls, Minn., on Tuesday, Sept. 2, 1890, at 8 o'clock p. m., for the purpose of placing in nomination one senator and four representatives. The number of delegates to the following number of delegates:

Crow Wing... 5
Mille Lacs... 2
Morrison... 4
Todd... 4

Dated at Little Falls, this 9th day of July, 1890.

J. H. RHODES,
Ch'n of Dist. Com.

The West Superior gambling houses have all been closed by order of the mayor.

The Fifth district democratic congressional convention will be held at Little Falls on Sept. 20th.

The democratic state convention will be held Sept. 9th. Candidates are already preparing to be slaughtered for the party's sake.

The date of the legislative convention for this district which was set for Sept. 2nd, has been changed to the 25th, in response to the request from Todd and Mille Lacs counties.

It is a fact as stated, that but 370 out of 1250 alliances were represented at the recent Farmer's Alliance convention, "it was indeed an exceedingly unfortunate convention," as the Great West remarks.

The Fergus Falls Journal says that census enumerators who are getting anxious about their pay will do well to remember that republicans are slow as well as ungrateful. All will be paid in course of time. There is nothing to do but wait until the pay arrives. It will be sent to the enumerators from Washington.

Tim on Top.

The somewhat celebrated case in which Tim E. Byrnes was defendant, which is now before the supreme court, is practically settled. W. A. Rogers, the man who transferred the property to Byrnes, has made a settlement with the creditors and has confirmed the title to the lands conveyed to Byrnes. This makes Tim the owner of some 5,000 acres of Aitkin county pine land.—Pioneer Press.

Canfield Gets a Whack at Brainerd.

Geo. S. Canfield, who runs a newspaper (by proxy) at Grand Rapids, and lives in Brainerd, is enjoying the satisfaction of having a chance to criticize the actions of our people politically. In his last issue he says:

Crow Wing county cut a dog, as well as their vote, in two. It was a funny thing to see Merriam fail of two votes there, where he had absolutely slated everything of Northern Pacific influence, and as a reward of such "merit" Crow Wing county is to have the Fifteenth District member on the committee, Jerry Howe, one of the anti-Merriam voters. Selah!

Iron Mines in Itasca County.

A number of Minneapolis gentlemen are arranging for the formation of a company to operate mineral lands which George F. Warner and others own in Itasca county. Among those who will be interested in the enterprise are N. F. Warner and Mr. Griffin. The latter gentleman was formerly engaged in farming and stock raising in Minnesota, but several years ago he conceived the idea that there was something worth looking after in the rough regions near the headwaters of the Mississippi. He began his researches over two years ago, and roughed it with Prof. Winchell and other prominent geologists until they were finally rewarded by valuable mineral discoveries. Mr. Griffin now owns a great deal of land. The leading spirits in the new company say they will be surprised if they do not ship 50,000 tons of ore from their property, which will probably be called the Warner mine, during the first year of the company's existence.—Pioneer Press.

Impaled on the Fork.

LITTLE FALLS, Aug. 6.—Eddie, the six-year-old son of Mr. Ledon, of Belle Prairie, while in the field with his father, who was hunting hay, had the misfortune of having one of the tines of a fork, which was in the hands of an older brother who was loading, run completely through his body. The fork came off the handle, striking the lad near the left arm pit and coming out near the shoulder blade. The time projected some for inches beyond the boy's back. His father pulled the fork from the lad's body. Dr. Traue, of this city, was called, and the boy will recover.

Arrested a Citizen.

The Motley Register correspondent has the following to say of Johnnie Burns, now chief of police at Staples: The marshal had over a dozen men at work on the streets Wednesday. They were fellows who had "no visible means of support." But the marshal came near "getting his foot in it," by the arrest of one man for vagrancy. On the way to the jail they met B. F. Hartschorn, who was acquainted with the prisoner, and the marshal then discovered that he had arrested an inoffensive citizen who happened to be idle when the marshal saw him. The man was immediately released, and the village thus escaped a suit for damages.

The Duluth & Winnepibic Trolley.

A telegram from Duluth says: Foley Bros. and Grant; the contractors who are building the Duluth & Winnepibic, have received notice from the Indian commission that they must take all their stores and equipment off the end of the week. Twenty thousand dollars will not cover the loss incurred in moving the contractor's equipment from the reservation. The contractors are guaranteed against loss of this kind in their contract with the construction company.

Cloud of Grasshoppers.

Monday afternoon for a short time the sun was hid from view by a cloud of grasshoppers from the north, passing south of Hallock. It caused great excitement for a time, but that country has evidently been spared such a plague.—Telegram.

A Treacherous Lake.

A man named Wm. Bullard sank in a treacherous mud lake last week before the eyes of two companions who were powerless to hold him. He had attempted to swim ashore after capsizing his boat. When found next day he was standing erect with his head but a few inches below the surface. The lake is about nine miles from St. Cloud.—Todd Co. Argus.

A Vast Region of Territory Still Virtually Unexplored.

Dr. Dawson, of the Canadian geological survey, says that nearly a million square miles in that country, or about one-eighth of the total area of this continent, are as yet practically unknown, says the New York Sun. The annual report of the geological survey and interior department of Canada have a peculiar interest from the fact that they are to a considerable extent records of original discovery. The greater part of the Canadian Northwest is well known along its water courses, and some of the explorers of the scientific bureaus are now pushing away from the rivers and lakes to map the regions lying between them.

In the large region embraced between the Great Fish river on the north, Great Slave and Athabasca lakes on the west, Reindeer and Hatchet lakes on the south, and Hudson Bay on the east, we find on the maps a large number of rivers and big and little lakes. It is a curious fact that all of these rivers and lakes have a place on the maps upon the authority of only one man, Mr. Hearne, who wandered for three years through this region over 120 years ago. We may infer from the changes the Canadian explorers have been making in the maps of other regions that these rivers and lakes will probably appear under quiet a different aspect when modern exploration reaches them.

The largest unexplored area in Canada is the interior of Labrador, almost 300,000 square miles, from mapping the larger part of which we have scarcely any information at all except Eskimo reports; and yet if these reports are in any degree trustworthy there are many interesting discoveries to be made in inner Labrador, including the big waterfalls of the Grand river, reputed to be the highest in the world, which no white man has yet visited. It will be a long time before our own continent ceases to furnish fresh geographical news.

Missing Links.

Lonis Hoyt was killed by lightning at Sturgeon Bay, Wis., Sunday.

The original decision has let loose a flood of lottery business in Indianapolis, Ind.

John Parrot shot and killed William Tivovick, in a drunken quarrel, Sunday, near Perryville, Ohio.

In Chicago Sunday, Henry Heying, 19, of the village of Oak Brook, killed Freddy Hack, 10 years old.

The German citizens of Cleveland, Ohio, yesterday celebrated the anniversary of the battle of Oreskang.

Union cloak-makers of New York, numbering 3,000, went out on a strike Tuesday, for an advance in wages.

Bural Irish demonstrations will be held in Chicago Aug. 15th, by the Clan-na-Gael and the friends of Dr. Cronin.

The Olympic club, of New Orleans, will offer a \$4,000 purse for a fight between Jack Dempsey and Bob Fitzsimmons.

Jay Gould is reported to have bought for \$5,000,000 the famous Castle of Chapultepec, in Mexico, for a winter home.

Dean and Field Dickerson, sons of Freeman B. Dickerson, the book publisher of Detroit, Mich., were drowned Sunday.

The United Brotherhood of Carpenters and Joiners of America, are in biennial session at Chicago, 200 delegates being present.

Nick Ames, a notorious character in jail at Lancaster, Wis., for burglary, escaped with two other prisoners, by digging out of the jail.

Over 3,000 names have been signed in New York City to a petition for the repeal of ex-Alt. Jaehne, who was connected with the great Broadway street.

Tom Cleary, of Fort Powansend, Wash., knocked out Tom Robinson, of Montana, Sunday, in 10 rounds. Robinson is blind in one eye as a result of the fight.

Samuel Wilson, a gambler at St. Louis, shot and killed Mrs. Clementine Manning, a dissolute woman. Mrs. Manning had recently terminated her relations with Wilson, which led to the killing.

Beloit farmers have hit upon a novel plan to protect their cornfields. A line of coal tar is run entirely around the field. The bugs, coming to this, follow it around, never attempting to cross it. The men dig at short intervals, into which the bug fall, very few being able to get out. One farmer reports that he took out of these holes and destroyed over three bushels of bugs in one day.

Gov. Howard has pardoned Albert Suthamer, convicted in 1887 of the murder of Albert Benlow in the town of Buena Vista, Portage county, Wis. Benlow was a young girl, and among the unfortunate females whom it was charged he was restraining in his house against her will was a sister of Suthamer's daughter-in-law. About twenty men met and made up their minds to rescue the girl and drive Suthamer from the country. When they reached the house Benlow appeared, and immediately three or four men in the party fired and killed him, evidently having contemplated this when they went. Several were convicted, among them Suthamer, who turned state's evidence.

BOARD OF EQUALIZATION.

Proceedings of Board of Equalization Meetings Held July 21, 22, 23, 24, 25, 28, 29, 30, 31, and August 1, 2, 6 and 7.

Present Commissioners Gardner, Farrar, Patterson, Smith, Stallman, and Auditor Tache.

BRAINERD, MINN.

THOMAS A. EDISON recently purchased 1,000 acres of land in Moore county, S. C., where an attempt will be made to open gold mines.

CAPT. WILLIAMS, of Jeffersonville, 20 years blind, is receiving his sight. He thinks the glare in his room of an electric light has something to do with the recovery.

If all the persons whose names are in the new government blue-book were to form a line four abreast it would take ten hours for the procession to pass the white house.

A BABY was born at Kenosha, Wis., the other day with a full set of upper and lower teeth and a fine head of hair. The impression in Kenosha is that it has beaten the world.

A NICE of the Pope Leo has married Count Salvatore Salimei. The bride is a daughter of the pope's sister. Her dowry was \$12,000, to which the pope contributed \$8,000.

THERE are 5,000 insane people in the city of New York, and experts on insanity say that the ratio of lunatics is increasing much faster than that of the population.

J. W. BUELL, of St. Louis, is spoken of as the most successful author of the age. A few years ago he was working on a St. Louis newspaper for a small salary, and now enjoys an income of \$60,000 a year.

DOUBTLESS the new viaduct which supplies New York with 300,000,000 gallons of water daily is regarded by Kentuckians as the greatest wonder in the world. They wonder what anybody can do with so much water.

JOHN BURNS, the English labor leader, has written a letter to a labor agitator in New York to say that in England the short-hour movements have always tended to sobriety and have increased the intelligence of the workers.

A DIVER who was working at the foundation of a railroad bridge near Boise City, Idaho, gave a signal to be hoisted quickly. When he got to the surface he held fast a sixty-five pound salmon that he had caught by the gills.

R. W. WRENN, general passenger agent of the East Tennessee, Virginia and Georgia railroad, was a telegraph operator during the war, and took from Gen. Lee to Jefferson Davis announcing that Richmond must be evacuated.

A KANSAS doctor recently reported to his medical society a case of poisoning which he attributes to the patient's habit of putting the end of his lead pencil in his mouth. Of course, the patient didn't know that there is no lead in a lead pencil.

A BOSTONIAN just returned from London says that he was attracted by a large crowd one day, and on investigation found that the people were waiting to see the man expected to enter a railway carriage marked, "Reserved for President Ames of America."

It is reported that the petrified remains of a man have been found on Jack creek, fifty miles from Rawlins. The body is that of a man seven feet in height, and of proportionate build. The find will be unearthed and taken to Rawlins, Wyoming, and will finally be sent to the Smithsonian institution.

RELIC-PEDDLERS are doing a good business on the field of Chickamauga. With assorted fragments of iron, old musket balls, sections of logs and sledge hammers, the supply of relics is easily kept up with the demand. The "Yankee" left some of his genius south of Mason and Dixon's line when the civil war was over.

It may be a surprise to many to learn that statistics prove sea to be safer to live on than land. The death rate of sailors in the British merchant marine is 12 per thousand; the loss of life by shipwreck is about a quarter of this; in fact, there are more lives lost among miners from accident than among sailors, and many more among railway employees.

People who ask "Is it hot enough for you?" Should take warning from the fact that a St. Louis man shot and killed a parrot which had insulted him with "Hi there, you blue-eyed monster, is this hot enough for you?" But St. Louis courage may not be sufficient for the shooting of bipeds without feathers who increase the temperature by throwing off conundrums.

IMPETUOUS noblemen seem to be so strongly bent upon securing American heiresses that they are overlooking the rich girls on their own side of the water. It is announced that Princess Marie-Leonide Bonaparte, daughter of Charles Bonaparte, intends to marry a lieutenant of the French infantry, and she has a fortune of 3,000,000 francs. But perhaps foreign girls do not care for empty titles.

ried visit to Mr. Dism. Minister Dismas returning from Mayr may have some connection with the matter.

INGERSOLL & WIELAND, Publishers.

BRainerd, MINNESOTA.

THOMAS A. EDISON recently purchased 1,000 acres of land in Moore county, S. C., where an attempt will be made to open gold mines.

CAPT. WILLIAMS, of Jeffersonville, 20 years blind, is receiving his sight. He thinks the glare in his room of an electric light has something to do with the recovery.

If all the persons whose names are in the new government blue-book were to form a line four abreast it would take ten hours for the procession to pass the white house.

A BABY was born at Kenosha, Wis., the other day with a full set of upper and lower teeth and a fine head of hair. The impression in Kenosha is that it has beaten the world.

A NICKER of the Pope Leo has married Count Salvatore Salimeti. The bride is a daughter of the pope's sister. Her dowry was \$12,000, to which the pope contributed \$8,000.

THERE are 5,000 insane people in the city of New York, and experts on insanity say that the ratio of lunatics is increasing much faster than that of the population.

J. W. BUELL, of St. Louis, is spoken of as the most successful author of the age. A few years ago he was working on a St. Louis newspaper for a small salary, and now enjoys an income of \$60,000 a year.

DOUBTLESS the new viaduct which supplies New York with 300,000,000 gallons of water daily is regarded by Kentuckians as the greatest wonder in the world. They wonder what anybody can do with so much water.

JOHN BURNS, the English labor leader, has written a letter to a laborator in New York to say that in England the short-hour movements have always tended to sobriety and have increased the intelligence of the workers.

A DIVER who was working at the foundation of a railroad bridge near Boise City, Idaho, gave a signal to be hoisted quickly. When he got to the surface he held fast a sixty-five pound salmon that he had caught by the gills.

R. W. WRENN, general passenger agent of the East Tennessee, Virginia and Georgia railroad, was a telegraph operator during the war, and took from Gen. Lee to Jefferson Davis announcing that Richmond must be evacuated.

SAM DEGRAV is a Lansing man with Santa Claus whiskers, who hunts sparrows six days a week, and makes a comfortable income therefrom. He furnished a large percentage of the 10,000 sparrow-skins paid for by Ingham County during June.

A KANSAS doctor recently reported to his medical society a case of poisoning which he attributes to the patient's habit of putting the end of his lead pencil in his mouth. Of course, the patient didn't know that there is no lead in a lead pencil.

A BOSTONIAN just returned from London says that he was attracted by a large crowd one day, and on investigation found that the people were waiting to see the man expected to enter a railway carriage marked, "Reserved for President Ames of America."

It is reported that the petrified remains of a man have been found on Jack creek, fifty miles from Rawlins. The body is that of a man seven feet in height, and of proportionate build. The find will be unearthed and taken to Rawlins, Wyoming, and will finally be sent to the Smithsonian institution.

RELIC-PEDDLERS are doing a good business on the field of Chickamauga. With assorted fragments of iron, old musket balls, sections of logs and loaded hammers, the supply of relics is easily kept even with the demand. The "Yankee" left some of his genius south of Mason and Dixon's line when the cruel war was over.

It may be a surprise to many to learn that statistics prove the sea to be safer to live on than land. The death rate of sailors in the British merchant marine is 12 per cent, and the loss of life by shipwreck is about a quarter of this, in fact, there are more lives lost among miners from accident than among sailors, and many more among railway employees.

PEOPLE who ask "Is it hot enough for you?" Should take warning from the fact that a St. Louis man shot and killed a parrot which had insulted him with "Hi there, you blue-eyed scoundrel, is this hot enough for you?" But St. Louis courage may not be sufficient for the shooting of bipeds without feathers who increase the temperature by throwing off condiments.

IMPETUOUS noblemen seem to be so strongly bent upon securing American heiresses that they are overlooking the rich girls on their own side of the water. It is announced that Princess Marie-Leonide Bonaparte, daughter of Charles Bonaparte, intends to marry a lieutenant of the French infantry, and she has a fortune of 3,000,000 francs. But perhaps foreign girls do not care for empty titles.

Mrs. M. H. Pennell, of this city, has
accepted a position as nurse in the
Woman's Hospital, at Minneapolis, and
left for that city the first of the week.

A new saw mill is being put in at
Bay Lake and will be in operation
shortly. Hunt Bros., the proprietors,
have a ready market for all the hard
wood lumber they can manufacture.

A Good Performance.
Last night, the Eunice Goodrich
company played Boblink, the Tom
Boy, one of Miss Goodrich's own
pieces, at the Grand. It was a pleas-
ing comedy and gave Miss Goodrich
ample opportunity to show her ex-
cellent sobriety ability. She is an
exceptionally clever actress and has
an admirable stage presence. Her
company is composed of strong peo-
ple and altogether, the company is
the best repertoire company on the
road. Miss Goodrich plays nothing
but clean dramas and her work de-
serves patronage.—Ashland News.

This troupe will be in Brainerd on
Aug. 18th, and will play the entire
week at popular prices, 10, 20 and 30
cents.

A Brainerd Girl's Sensation.
The St. Paul Globe contains the
following in its Wednesday's issue
which will be read with interest by
those who are hunting for something to
gossip about:

One of the boldest cases of abduction
heard of for some time past was
that which occurred yesterday from
392 East Sixth street. The house is
occupied by F. C. Kuehn, a German
family, and with them is staying Mrs.
Anna Zottman, of Brainerd, who is a
friend of the family and who has
been in St. Paul but a few days. The
missing one is little Emma Gray, a
very handsome child between fifteen
and sixteen years old. Mrs. Zottman,
the girl's mother, is married a second
time, her present husband being pro-
prietor of a restaurant in Brainerd.
In that city Emma Zottman was
brought up, and she is known there
as a girl of extremely sweet disposi-
tion, and one against whom the
smallest breath of scandal has never
been directed. Three weeks ago the
child stated a desire to visit a girl
friend in St. Paul named Jennie
Beckman, whose acquaintance she had
formed while the latter was on a visit
to friends in Brainerd. Mr. and Mrs.
Zottman objected to her coming to
St. Paul alone, but the child persisted
in her request, and was at last allowed
to depart. She was to have returned
in a week, but wrote that she desired
to stay longer, and nothing was
thought to be wrong.

Becoming alarmed, however, at her
continued absence, Mrs. Zottman came
to St. Paul on Monday to take the
girl but was unable to find her. Her
arrival here that she discovered the
doubtful character of the girl her
daughter had been visiting. She also
made the discovery that the child had
not been at the Beckman home. She
tried to get in touch with the Beck-
mans, but they claimed to have no
knowledge of the whereabouts of either
girl. A description of the missing
child was furnished the police, and
Monday night Serg. Zerkelbach
issued a search warrant for Emma
Gray, and in the afternoon, and half an
hour later returned in a hack accom-
panied by the woman for whom she
claimed to have been working. Her
companion, whose description tallies
exactly with that of the Williams
woman, told Mrs. Zottman that the
girl was working for her until her
husband returned from Chicago, and
begged that she might be allowed to
stay a couple of weeks longer. Mrs.
Zottman dissented, but the woman
drove off with her prey. The mother
of the child says that she was not
made aware when at the police station
of the character of the place in which
Emma had been found. She did not
find out until 9:30 last night the true
state of affairs. She then instituted a
search for the girl, but up to a late
hour last night her whereabouts had
not been discovered. A Globe repre-
sentative visited the Williams place
last night. Alice Williams stated
that the story of the hack was a lie,
and that she had not been out of the
house all day. The girl, she said,
had called there in the afternoon, but
did not ask for her trunk. She denied
that Miss Gray was in the house at
that time, though she stood with her
back to the door of one of the rooms
as if fearing intrusion in that quarter.
The police were looking for the girl
late last night, but the indications
are that she has been taken out of the
city. She was engaged to marry a
young man in Brainerd named Scott
Baxter and employee of the Northern
Pacific Railway company. The Zott-
mans are a very respectable family,
and the disgrace is keenly felt by
them.

Matrimonial Events.
Licenses to marry have been issued
to Enoc M. Carrott and Elizabeth
Warner; Samuel Mannin and Maggie
Warner; Sylvester Heath and Pris-
cilla Pionton.

Chas. Wintersten and Miss Sophia
Bourgeois were united in marriage
last night by the Rev. C. H. Treglaw-
ney, at the M. E. church parsonage.
A reception followed at the resi-
dence of Mr. Lionas' on Fourth
street south.

Mr. Calvin Carr and Miss Anna
Downey, both of Bay Lake, were
married at the M. E. parsonage, by
Rev. C. H. Treglawney, last Tuesday.

Mr. John McClintock and Miss
Jennie Bradford, both of Oak Lawn,
were married at the M. E. parsonage,
by Rev. C. H. Treglawney, on Wed-
nesday.
